Encore!

The BEST of *On The Hill with Steven C* concert series
Join us at The Commodore May 16 & 17

(Saint Paul, MN) Sometimes dreams do come true. Steven C will return to The Commodore, a landmark of elegance and jazz-age glamour, on Cathedral Hill for ***Encore!*** A *best of* concert featuring Steven C's most popular titles, ***plus new*** Steven C originals, and accompaniment from an A-list of musicians and vocalists. "Cathedral Hill has been a source of inspiration for me, the nostalgia, history and the neighbors who always show up! I love all it," said Steven. A well-established pianist, composer, and recording artist, Steven C. Anderson (Steven C) last performed at The Commodore in October when he released his newest CD, ***Retrospect: The Art of Solo Piano***, recorded on his nine-foot Grand Bösendorfer. Will the Bösendorfer return for an encore as well? Will there be a prize for the fan who can name all "On The Hill" concert titles? A sing-along? For those answers, select a night and join us.
